

A Report on STELLAR 101

Date of Event: Wednesday, March 12, 2025

Organized by: Computer Society of India Student Chapter MPSTME Shirpur Campus, LearnTech, IIC, I4Cell and Raw Vision Media, in collaboration with Stellar India.

Conducted by: Aditya Maurya, Stellar Lead

Conducted for: Students of MPSTME Shirpur Campus

Venue: Auditorium, SVKM's NMIMS MPTP Shirpur

The event "*Stellar 101*", organized at MPSTME Shirpur, was inaugurated with a traditional Saraswati Pujan led by Dr. Venkatadri M., and attended by dignitaries including Dr. Mayank Sohani, Prof. Piyush Kumar Soni, and Prof. Dhananjay Joshi. The session featured Aditya Maurya, Stellar Lead, as the keynote speaker, introduced by Stellar Regional Ambassador Utkarsh Mandloi.

Aditya Maurya delivered an insightful session on Blockchain and Web3 fundamentals, including a live demonstration of Stellar blockchain technology. Utkarsh Mandloi followed with a focused talk on Stellar's architecture and benefits. The event included interactive Q&A rounds, engaging activities, and a competitive quiz, all of which boosted participant engagement and understanding.

The session highlighted Stellar's real-world applications in finance, supply chains, and governance, as well as funding opportunities through the Stellar Development Foundation. It concluded with a networking session, encouraging idea exchange and professional connections.

Key Outcomes included foundational knowledge in blockchain systems, smart contracts, and decentralized finance. Participants gained insight into ethical and sustainable tech use, real-world problem-solving, and lifelong learning through exposure to emerging technologies. "*Stellar 101*" successfully introduced students to blockchain's transformative potential, inspiring them to explore decentralized innovation and entrepreneurial paths.
